

Grosvenor Column Range

The Grosvenor column has been designed specifically for both interior and exterior installations, to enhance any location. Finished to a satin polish as standard, the column has further options for individuality for each project. It is manufactured in stainless steel.

Our manufacturing processes enable us to profile the columns to specific designs, such as, a company name or shopping centre name within the shaft. With the ability to light these from within, these columns provide a custom-built welcome to any location or building.

To add to the final product quality a mirror finish can be polished into the collar and the door.

Item Ref	Column Height above Ground	Base Diameter	Shaft Diameter	Root Depth
CGR001	4 metre	139 mm	76 mm	800 mm
CGR002	5 metre	139 mm	76 mm	800 mm
CGR003	6 metre	139 mm	76 mm	1000 mm
CGR004	6 metre	168 mm	89 mm	1000 mm
